DETAILED ACTION

1. Claims 32-39 and 41-47 are pending.

2. In view of Applicant's amendment and response, filed 9/23/02, the previous rejection under the first paragraph of 35 U.S.C. 112 has been withdrawn. Additionally, all objections to the claims have been withdrawn.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 32-39 and 41-47 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 5,994,511 in view of U.S. Patent No. 5,622,700 (1997), for the reasons of record as set forth in Paper No. 13, mailed 6/03/02.

Applicant's arguments, filed 9/23/02, have been fully considered but they are not persuasive. Applicant argues that, "In response, Applicants respectfully submit that the Examiner's reliance upon *In re Kerkhoven* and M.P.E.P. § 2144.06 as authority for the rejection is misplaced," as "the present situation is not akin to that described in M.P.E.P. § 2144.06 and *In re Kerkhoven*." Akin or not, it remains the Examiner's position that the compositions of the instant claims are obvious in light of the claims of the '511 and '700 patents. Applicant argues that "there is simply no overlap between the presently claimed subject matter and the claims of the '700 patent." It remains the Examiner's position that there is, however, enough overlap

between the subject matter of the instant claims and the subject matter of the claims of the '511 patent in view of the subject matter of the '700 patent to maintain the rejection.

5. No claim is allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
